

# RMA Instructional Program

## 4 HOURS

RMA's accelerated, personalized learning sessions are each four hours long. Our morning session is held from 7:55 -12:06 and our afternoon session is held from 12:39 - 4:50.

## SMALL CLASS SIZES

RMA classes are often almost half the size of class sizes at large high schools. We believe learning should be personalized to meet the needs of individual students. Many teachers and students describe RMA like a family—we aim to provide a community of learning and motivation for all learners

## CREDIT AND DROPOUT RECOVERY

RMA's mission speaks to our belief that all students are capable of earning their diploma. We understand that many times there are situations that arise in life which can cause students to either fall behind in their course credits, or even feel like they have no options left but to drop out entirely. While RMA is designed to meet traditional student needs; unlike most schools, we also specialize in Credit-Recovery offerings and Dropout-Recovery services.

## 1:1 INSTRUCTION

RMA is designed to individualize high school for students at all levels. No matter at what level our students begin, they will find success at RMA because teachers take time to provide individual assistance, student support and motivation.

## TECHNOLOGY

The average number of computers on each RMA campus is 250. Daily access to high-levels of technology provides RMA students with the opportunity to innovate, collaborate and excel using our blended learning rotational model.

## 1 COMMON CURRICULUM

With help from our curriculum experts across the district, we have developed accelerated, innovative curriculum built upon the Texas learning standards and created within Canvas, the learning platform utilized by major universities throughout the state and nation.

We have proven academic outcomes are not only possible but probable when schools invest in great teachers; build a culture of high expectations; and create effective support systems to ensure that student learning is at the forefront of every decision made.
